NORTH SAILS BEST.FIT.SYSTEM – PERFECTLY MATCHING COMPONENTS

One thing is sure: all NORTH SAILS components fit almost all sails of different brands and improve their performance. In addition, there are ideal combinations that can get the maximum out of every rig. Components within the RED, SILVER, GOLD and PLATINUM series make great combinations, and were designed to perfectly match each other. In terms of performance and price, the following rule of thumb applies: the more money you spend, the lighter and more dynamic and powerful your rig will be. This means that you determine how much performance you need or how much you are willing to invest in your performance.
